

CO2 LEAK DETECTOR SAN-13

The SAN-13 CO2 Leak Detector is designed for employees or workers to detect areas in which CO2 leaks can occur. It is highly sensitive, tracking even the smallest of CO2 leaks.

FEATURES

- Audible and visual indicator
- NDIR Sensor technology
 - takes 20 readings per second
- Rugged design with protective rubber enclosure
- Heavy duty metal clip
- Rechargeable Li-Ion battery
 - 12+ hours per charge
- Large OLED Display
- IP54 housing protects against dust and rain

SPECIFICATIONS

- **Measurement Range:** 0-20% CO2
- **Sensor Accuracy:** ± 70 ppm
 $\pm 20\%$ reading value
- **CO2 Measurement Interval:** 20 readings per second
- **Audible Alarm:** 90 dB @ 10 cm
- **Sensor Life Expectancy:** 15 years

INCLUDES

- 110/240 VAC USB Wall Adapter
- USB Cable for Charging
- User Manual

ADDITIONAL PERSONAL DEVICES

- SAN-10 - Personal 5% CO2 Safety Monitor
- SAN-20 - Personal O2 Safety Monitor
- SAN-30 - Personal CO Safety Monitor
